

Biotechnology Quiz Two

Define Technology and know examples of technology

Define Biotechnology and know examples

Know uses of Biotechnology in the Health area, the Environmental Area, the Agricultural Area, and the Forensics Area

Know the steps of Gene Splicing

Know and Understand Organic Compound and Inorganic Compound

Know the purpose of DNA

Know the different parts to DNA Extraction

Know the purpose of DNA Profiling

Explain the Following

Plasmid

Cell Membrane

Cell Wall

Cytoplasm

Nucleus

Mitochondria

Chromosomes

Genes

Heredity

Punnett Squares

Genetics

Restriction Enzyme (ECO-RI)
